EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1 of the specification after " 2000 " has been added -- and now U.S. Patent Number 6,635,017 -- .

On page 11 of the specification in line 4 " pending " has been deleted in favor of -- U.S. Patent No. 6,196,972 -- .

The following is an examiner's statement of reasons for allowance: Parent case Patent No. 6,635,017 was considered regarding its claims 23 – 28 in relation to this applications claim set 121 – 124 since elsewhere in more recent U.S. Patent No. 7,128,713 claims are directed to features where determination is made of Doppler power however in the latter context the determination is made as a data value and not as a determinant of window operation and governance is made of color coding and not window optimization.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
